

Corporate Outline

Our company is a major manufacturer having been acting as a prestigious business firm for 96 years in the gypsum industrial circles since its initiation.

It has always been making efforts to study and improve its technology pursuant to its active, steady management policy, thus pushing forward in a constant way.

Especially the quality of our company's technologies and products enjoys a high reputation at home and abroad all the time since its initiation, whereby much is expected of the company.

Recently environmental problems have loomed large, and therefore our company is seeking to cover these problems on one hand, and ,on the other, is taking concerted action to manufacture higher value-added products, pouring energies to developing new products, and all the employees are striving to carve out their way more effectively under the corporate policy of always having a lofty ideal and producing fruit steadily.
